#WorldValuesDay

World Values Day is on Thursday 17th October, 2024 and seeks to increase the awareness and practice of values around the world, and highlight their crucial role in the wellbeing of individuals, families, organisations and society as a whole.

Since 2016, World Values Day has provided an opportunity for individuals, families, schools, organisations and society as a whole to think about our most deeply held values and explore and act on them with others.

Values are what matter most to us!

They motivate and guide us. They are the passion in our hearts, the reason we do the things we do.

In a world that can feel increasingly divided, values help unite us.

They are the glue holding together our communities and wider society.

*Our 2024 campaign theme is
Bringing Values to Life.*

World Values Day reaches many millions people each year in over 100 countries around the world.

Universities, schools, hospitals, care homes, NGOs, local governments, and all kinds of commercial businesses take part each year, putting their values into action in a myriad of ways.
